

Cross Rug designed by Domingos Ferreira | 2014

Press Release

A 3D Rug inspired by Portuguese Traditional Tiles

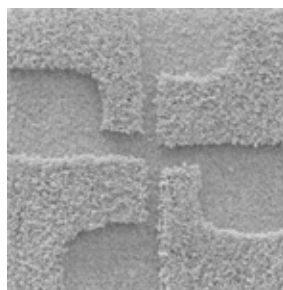

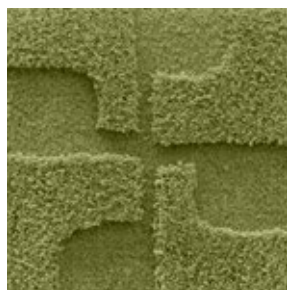

Domingos Ferreira continues, inspired by Portuguese tiles, to design rugs that bring a sense of art and style into every interior. Cross Rug is a 3D rug, its name comes from the crosses done in relief. The design, available in 3 colors - blue, green and grey - and 3 sizes, offers a dynamic visual effect, you'll be tempted to touch! This high-quality rug is hand-tufted in 100% wool, from Portugal and New Zealand, and it's incredibly comfortable, easy to care for, ages well and holds its color.

150x200cm = 5' x 6'6" | 170x240cm = 5'6" x 7'9" | 200x300cm = 6'6" x 9'8"

Note: Rugs may vary in color due to the differences in computer displays. There's also the possibility of customizing the color.

TWO.SIX

Two.Six design and Two.Six For Kids. Two.Six design studio favors **colors, and clever details**. Think touchable stripes of lacquer and quirky fabric accents, combined with handsome natural wood, of course. Aesthetically rich, challenging for its creativity. Two.Six Collection is made of versatile objects that naturally coexist in eclectic environments.
